

Guess where  
our family went  
last night!

The Moon? Mars? Halley's Comet? YES!!!

*We went to space on a*

★Challenger Center★

Simulated Space Mission!

**YOU CAN GO, TOO!**

Sign up for the next launch --  
and experience the wonder of space exploration!

Be a **Robotics Expert** headed to the Moon or a **Life Support** scientist traveling to Mars.  
**Navigate** a course to intercept a Comet or build an unmanned **Probe**.  
Be a **Planetary Geologist** or a **Hydroponics Botanist**. What will **YOU** be?

**Experience the Challenger Center Mission Control and Spacecraft**

Modeled after Johnson Space Center, designed for future space travel!

A fun adventure for friends, families, co-workers, club members!

An educational experience for children, home school students, scouts!

Program includes a short training session and a 90-minute simulated space mission

*(See schedule on reverse)*

**Ignite your imagination and reach for the stars!**

Sacramento's Challenger Learning Center is the **MOST VISITED** of the  
5 Challenger Learning Centers in California, and the 9<sup>th</sup> **most popular** of the 50 existing  
Challenger Learning Centers. Come and join the fun!

*Do you have a group of 16-34 members?*

*Private missions are available!*

*A perfect activity for home school groups, scouts, church groups, clubs, etc.*

# Challenger Learning Center

Located in the Discovery Museum Science & Space Center  
3615 Auburn Boulevard (Near Watt Avenue)  
Sacramento, CA 95821
